

What's on Mondays? - DX Bulletin Raul LU6EF

Every Monday at 2100 LUT in the frequency of 3514 KHz transmit the latest DX news, expeditions and competitions.

Also inform the correspondence received in the mail box GACW. Since the beginning of GACW Raul has maintained against "all odds" this link radiotelegrafistas open to all of our region. What continues to make with great enthusiasm, dedication and solidarity, is recognized as many members and friends of GACW who stay informed through their broadcasts. At the end of the program makes listening to receive their greetings and comments.

He said about LU6EF:

Hello dear friends and listeners:

I appreciate the constant company of you and I invite those who have not experienced these newsletters to join us and do this at the end of it, that will attend to exchange greetings with pleasure.
